Your new Medline Canada Account and How to Order from Medline Canada

June 17, 2024

Dear Valued Medline Canada (Médi-Sélect) Customer,

As we shared with you recently, Medline Canada, Corporation has been working on an enhancement to our core Enterprise Resource Planning (ERP) system to fully integrate the business operations of Médi-Sélect with Medline Canada. As part of this initiative, we are retiring our Quebec City warehouse, and we will serve all customers from our modern centralized Distribution Centre as of July 26, 2024.

This transition will not affect pricing or product offerings, and you will continue to receive quality service and value-added expertise from Medline Canada. The product order codes for items will be changing to the codes used in our Medline SAP system and we will be providing you a complete cross-reference guide that will reference the current product code and the new code to use once transitioned.

Over the coming weeks, your Medline Sales Representative will reach out to help and assist you in the setup of this transition (please feel free to contact them in the coming weeks if you do not hear from them). We have proactively set up the account and pricing in the Medline SAP system. Below, the link to our order portal, product catalogues and our Customer Support contact information. To begin ordering products from our online portal, please use the link on the web order portal. Contact your Sales Representative or Customer Support team to register for online ordering and to obtain your new account number.
